

LED vacuum indicator

SMI2-LVT

The SMI2-LVT vacuum LED indicator is designed for autonomous indication of current values, an LED indicator is offered.

A bright LED display and large 14 mm symbols will ensure the visibility of the displayed value from a long distance.

Easy to set up.

It is convenient to place on mnemonic circuits of installations.

*Requires an external power supply.

Параметр	Значение
Supply voltage, V	24
Data transfer protocol	ModBusRTU
Interface	RS-485
Connection	directly into the vacuum meter connector
Mutual arrangement of the vacuum gauge and the sensor	arbitrary
Diameter of the mounting hole of the light signal fittings , mm	22,5
Overall dimensions (L x W x H), mm *(Length x Width x Height)	45 x 60 x 26
Weight, kg	не более 0,4
